In addition to the basic house and hall regulations, the following rules apply in particular to all users of the climbing facility:

You have responsibility!

All users of the climbing facility are responsible for their own safety. Also pay attention to the safety of the other climbers. If you notice unsafe behavior, speak to the person or ask a present instructor to take a look.

Thoughtfulness

- Take care and do not endanger anyone!

- Discuss before starting whether climbers of two routes could constrain each other (for example crossing over).
- Always stay on the climbing line that belongs to the route.
- Caution when lowering! Keep an eye on the landing zone.
- Do not block routes with suspended ropes or bouldering unnecessarily long.

Safety technology

- Its only allowed to secure with **Autotubern** oder **Halbautomaten**. Tuber and HMS pose a high risk and are only allowed to be used with special training and experience after consultation with the operator.
- The rope is tied directly into the belt with a figure eight knot loop or bowline on a bight.
- In the lead climbing ALL intermediate belay are mounted.

Cable rules

- The existing ropes may only be removed at the routes where you want to climb either with your own rope or with the rope removed. After climbing the ropes IMMEDIATELY have to be hung in the diverter again.
- Ropes may NOT be deducted for other routes.

Crash areas:

- Keep the blue fall protection surfaces free of objects and pockets.

Beyond these rules, the recommendations of the DAV for climbing on artificial climbing facilities and the general rules for the use of the sports center of the University of Kiel apply.
